AGENDA

- Review of 2015-2016 School Quality Snapshot
 - Significant change in demographics from MS to HS
 - HS movement from Level 1 and Level 2's.

Goal 5D:

With Goal 5D, Mr. Sherman would like a goal that is tied to SPED Nest goals and with Co-teaching. Per Roslyn's email dated Oct. 28, "Co-teachers will use Nest essentials in order to drive instruction. This will be evident in classroom structures, lesson planning, and student assessments."

To be amended and included: "By June 2017, co-teachers of NEST will have received support in implementing Nest essentials in order to make learning accessible to all students. This will be evident in classroom structures, lesson planning, and student assessments. By June 2017, NEST teachers will respond favorably to questions about the support they receive on team on NEST essentials.

If there is a NEST team teaching goal, should see it in PD. Goal should be directed as NEST strategies, PDs, etc.

There should be NEST and Team Teaching included in the CEP. Three and ½ years left in the NEST build out, the number of teachers, coaches, etc. will be minimized so teachers must be trained and utilize the NEST strategies.

Action Plan: Once a month NEST PD around Nest essentials and best practices.

NEXT STEPS: Review CEP Draft
