

COVID-19 Regents Cancellation: What does that mean for me?

Sophomores- Class of 2022

June Regents are Cancelled and Exams are Waived

NYSED and the Board of Regents have cancelled the June 2020 Regents exams. There are 3 scenarios where this exemption applies.

Although the Regents exams have been cancelled, sophomores must still complete their required coursework in order to receive credits towards promotion to 11th grade.

Students who intended to take any June 2020 Regents may be eligible for a June 2020 Regents exemption. This exemption applies to:

1

Any student currently enrolled in a course that culminates in a June Regents exam, and who will have passed the course.

If you pass your Regents class, you will be exempt for your Regents.

2

Any student who fails the Regents course at the end of the school year and makes up the course in summer school will be granted Regents exemption in August 2020.

3

Any student who previously passed a Regents course, but has not yet passed the associated Regents exam and was intending to take the test in June by sitting in AIS to achieve a passing score.

What does this mean?

1. A Regents exemption due to COVID-19 will grant you a waiver on the ELA, Global History, Math and Science Regents, only if you pass the class.
2. If you were scheduled to retake the Algebra or Living Environment Regents, you will be exempt from those exams as long as you were attending AIS prior to Remote Learning.
3. You will NOT be required to retake the Global History and Science Regents. However, you WILL be asked to retake the ELA Regents/ Algebra I Regents in January 2021 to reach College Readiness scores (ELA- 75+ and Algebra I- 70+).

Lab Requirements for Science Classes

Students do not need to complete 1,200 minutes of satisfactory laboratory experiences in order to be exempted from a Science Regents Exam. This means that all you need to be exempt from a Science Regents Exam is to pass the course (Living Environment/ Earth Science/ Chemistry).

What does this mean?

1. You must pass your classes.
2. Promotion Requirements: 24 Credits

Focus on English 10, Global History 10, Living Environment/ Earth Science/ Chemistry, Geometry/ Algebra 2, Total 2 Phys Ed Credits, Foreign Language Class, Art/ Music.

Reach out to Mrs. Park if
you have questions about
your Promotion Status.
